SHAIK ARHAM SAQUIB

Dublin, Ireland — +353858076267 — sarhamsaquib@gmail.com — Linkedin — Portfolio

PROFESSIONAL SUMMARY

Business Intelligence and Data Analytics professional with 2.5+ years of experience at Hitachi Digital Services in SQL-based reconciliation, production incident investigation, ETL monitoring and operational reporting. Experienced in identifying discrepancies, analysing root causes and coordinating issue resolution across technical and business teams. MSc Computing (Data Analytics) graduate from Dublin City University and creator of FireOPS Lab, an independent payment operations simulation. Seeking to apply analytical and operational problem-solving skills as an Operations Analyst at fire.com.

KEY SKILLS

- **Operations & Reconciliation**: Data Reconciliation, Exception Investigation, Data Validation, Discrepancy Analysis, Operational Monitoring, Issue Resolution, Process Improvement, Record Accuracy
- **Technical & Analytical:** SQL, PL/SQL, Python, Advanced Excel, Data Analysis, Data Quality Checks, Root Cause Analysis, KPI Reporting
- **Systems & Reporting:** Oracle BI (OBIEE/OBIA), Oracle Data Integrator (ODI), Power BI, Tableau, Oracle APEX, ETL Monitoring, Data Warehousing
- **Operational Support:** Incident Management, Production Support, Troubleshooting, Issue Escalation, Cross-Functional Coordination, Process Documentation, Audit Trails, Stakeholder Communication
- **Relevant Project Experience:** Payment Lifecycle Simulation, Payment-to-Settlement Reconciliation, Exception Classification, Case Management, Operational Dashboards, Monitoring and Reporting

PROFESSIONAL EXPERIENCE

Hitachi Digital Services | Hyderabad, India

Data Analyst Mar 2024 – Jul 2025

- Monitored Oracle ODI workflows, scheduled ETL jobs and enterprise reporting processes to identify operational failures and maintain reliable data processing.
- Investigated production incidents, data discrepancies and reporting exceptions using SQL and PL/SQL, performing root-cause analysis and coordinating corrective actions.
- Supported month-end operations through data-load monitoring, validation checks, exception handling and stakeholder communication.
- Improved recurring reporting and validation processes, contributing to an approximately 25% reduction in manual reporting effort.
- Collaborated with global technical and business teams to resolve application issues, communicate operational risks and support service continuity.
- Performed SQL-based data quality checks and source-to-target reconciliations to identify missing records, inconsistent values and reporting exceptions, supporting accurate operational reporting.
- Received the Hitachi Pinnacle Award for execution excellence and collaboration.

ERP & Business Intelligence Analyst Feb 2023 – Mar 2024

- Supported Oracle ERP/EBS R12 and business intelligence environments, monitoring operational data and reporting workflows.
- Used SQL and PL/SQL to investigate data integrity issues, validate reporting outputs and identify discrepancies across enterprise datasets.
- Monitored scheduled Oracle BI and ERP processing activities, investigated failed jobs and validated recovered outputs to help maintain reliable downstream reporting.
- Supported data reconciliation, system validation and troubleshooting activities, documenting findings and coordinating corrective action.
- Assisted with application testing, defect tracking and verification of expected system behaviour.
- Prepared operational documentation, SOPs and reporting specifications to support consistent processes and knowledge transfer.

SOS Group | Dublin, Ireland
Security & Reception Officer May 2026 – Present

- Coordinate front-desk operations, visitor registration, access control and administrative requests within a professional corporate environment.
- Maintain accurate visitor records, incident reports, operational logs and shift handover documentation.
- Monitor CCTV and access-control systems, identify irregularities and escalate incidents according to established procedures.
- Liaise with facilities, IT, building management and contractors to resolve operational issues and maintain service continuity.
- Handle telephone and email enquiries, verify information and communicate updates while maintaining confidentiality and professional service standards.

PROJECTS

FireOPS Lab | Payment Operations & Reconciliation Simulation

Live Demo: https://fireops-lab.vercel.app/

- Built an independent payment operations simulation using Python, FastAPI, PostgreSQL and Next.js, demonstrating payment processing, settlement reconciliation, exception classification and operational monitoring.
- Developed workflows for investigating payment-to-settlement discrepancies, assigning cases, recording investigation notes, escalating issues and tracking resolutions through audit histories.
- Created operational dashboards and CSV reporting to analyse reconciliation outcomes, exception trends and case-management activity using fictional financial data.

OpsResolve AI | AI-Powered Enterprise Support Intelligence Platform

Live Demo: https://shaikarham.github.io/opsresolve-ai/

- Developed an AI-assisted enterprise support platform using 200 fictional incidents and 26 SOPs to demonstrate incident tracking, ticket classification and application support workflows.
- Designed SLA-risk assessment, similar-incident search, SOP recommendations and escalation summaries to support structured troubleshooting and operational decision-making.

XAI-Enhanced LLM-Based Agent for Residential Energy Load Scheduling

MSc Computing (Data Analytics) Practicum — Dublin City University

- Developed an LLM-driven scheduling framework integrating XGBoost and Explainable AI techniques to forecast residential energy consumption.
- Implemented predictive modelling using Python, achieving an R^2 score of 0.651 on held-out test data, with SHAP-based explanations to interpret model predictions.

EDUCATION

MSc Computing (Data Analytics) Sep 2025 – Aug 2026
Dublin City University, Dublin, Ireland

B.Tech in Computer Science Engineering 2019 – 2023
CMR Institute of Technology, Hyderabad, India

CERTIFICATIONS

- Oracle Cloud Infrastructure 2023 AI Foundations
- IBM Cognos Analytics 12.0.0 Cloud Training
- Customer Support & Zendesk Support Operations
